It is easy to enjoy local Fukui culture here through the flavors, sights, and sounds surrounding the hotel.

Convenience

The hotel is not only located conveniently near many activities but also next to the parking lot for large tour buses. There is no need to travel far with baggage, simply walk off of the bus and into Hotel Riverge Akebono. Because of its location along the Asuwa River the hotel is also located near an excellent place to walk or jog in the mornings. This path along the river has been identified as one of the top 100 cherry blossom-viewing locations in Japan.

History

Hotel Riverge Akebono is located on the same original historical site of the old Fukui city hall, which stood here about 100 years ago. The most recently constructed East Wing of Hotel Riverge Akebono was made to reflect the old style of the previous city hall building that once stood here. This was done in order to maintain a sense of historical significance and deep appreciation for Fukui and its governmental history.
